Caring for Child Survivors Guidelines

Outlines the core knowledge, skills and attitudes required for health and psychosocial workers caring for children and families affected by sexual abuse.

Provides case management and targeted psychosocial interventions to help children and families recover and heal from the impacts of sexual abuse.

Caring for Child Survivors of Sexual Abuse

Guidelines for health and psychosocial service providers in humanitarian settings

First Edition

What have we learned?

- Service providers feel able and comfortable to talk about child sexual abuse- first time this has happened
- Skills and knowledge have increased
- Environments where child survivors are received have changed
- Better referrals and linkages between GBV and CP- buddy systems, service agreements

Primary Goal of Adolescent Girl programming

To prevention and response to violence, abuse, and exploitation against adolescent girls in humanitarian settings
