

SCRIPT AND SUPERVISED ORAL HIVST CHECKLIST

INVITATION MESSAGE BY PHONE

Good morning/afternoon, sir/madam. My name is _____ and I work with Makerere University School of Public Health/Mildmay Uganda. I would like to thank you for accepting to participate in our HIV self - testing study and for using the kits that we gave you/which were delivered to you by your partner. Some people who used these kits found them easy to use while others found them difficult. We are following a few people to get more information about their experiences in using these kits. We would like to capture some of these experiences but also understand a little more on why the test kits performed differently for some people than others. We would like to talk to you about these experiences.

We specifically want to see you repeat the steps you took in the testing and interpretation of the results, in the presence of a counsellor. When you come to [Name of facility], we will compensate you with 20,000shs to cater for your time and transport.

Is the respondent willing to participate? Yes () No ()

Are you willing to come? Yes () No ()

Interviewer: If respondent agrees to come to the facility, please inform them about the date and time of the visit.

=====

MESSAGE FOR THE RESPONDENT WHEN THEY COME TO THE FACILITY

Thank you for responding to our invitation. As we mentioned to you earlier, different people had different experiences when they used the kits. For some, when the kits were stored, we realized that some test kits developed a second faint line after showing only one line. We observed this with your sample. Although your result was negative, we would like to watch you do the HIV self-testing again and then compare the results with results from two other tests. In other words, we will use three different HIV testing methods which include HIV oral self-testing (which you will conduct as we watch you); the blood-based HIV tests will be conducted by a health worker at this facility and the public health laboratory in Kampala. We will let you know the results of all your tests. The process of conducting the tests at this facility will take about 30 minutes while the test conducted in Kampala will be available after two weeks. You will be compensated with 20,000shs for your time and transport.

Are you willing to participate? Yes () No ()

INVITATION MESSAGE BY PHONE (Luganda)

Nkulamusiza Sebbo/ Nyabo. Amanyanga nze.....nkola nekitongole kya Makerere University School of Public health/ Mildmay Uganda. Nkweyanziza okukiriza okwetaba mu kunonyereza kuno okwokwekebeza akawuka akaleeta mukenenya nokukozesa kiiti eyakuwebwa oba omwagalwawo gyeyakuwa.

Abantu abamu abakozesa kiiti zino basanga nga nziibu ate abalala nga nyangu zakukozesa. Tugobelera abantu abatonotono okusobala okumanya kubiiki byebayitamu mu kuzesa ziikiti ziino. Twagala okuzuula obumu ku bumanyilivu ate tweyongele okumanya ebitonotono kulwakiy enkuzesa ya kiiti ziino yayawukana ku bantu abamu oba abalala. Twagala okwogerako kubumanyilivu buno. Twagala nadala okulaba ngoddamu emitendela gyewayitamu nga wekebera nokuvuunula ebivudemu mu maaso ga cansala omutendekke. Bwonagya ku dwaliro ogyakuwebwayo shs 20,000 eza Uganda ngakassimo olwobude bwowadeyo nentambula gyonaaba okozeseza.

Wandyaggadde okujja?
